MICHAEL H. DEAKIN
President & CEO

Lifeline is the biggest, fastest, most reliable private ambulance company in the Philippines.

For almost 30 years, we have lived up to our mission and vision of providing reliable and efficient emergency medical response services to those in need of it. With over 500,000 lives saved, ours is a name trusted by Manila's top hospitals, malls, schools, highways, premiere residential villages and business districts, and by the 5 million members we cover within these areas.

Our world-class ambulances are virtual Emergency Rooms on Wheels and are fully-equipped to respond to life-threatening situations with an average response time of 12 minutes. Once we get to our patient's side, our focus shifts to stabilizing and transporting him to the nearest hospital or to the hospital of his choice.

Our qualified teams of doctors, nurses and EMTs handle the emergency with expertise and care from the second we receive the call. This includes making sure all our patients are thoroughly endorsed to the receiving hospital and to the doctors on-duty. Because of our sizeable network of doctors and hospitals, Lifeline can ensure that our patients will have a room and a receiving doctor.

Our reputation and competence have given us the honor of providing ambulance and medical support to VIPs, US Presidents, the Prime Ministers of Australia, Canada and Japan, and our personal favorite, Pope Francis. We are also contracted to cover tournaments, concerts and other major and specialized events in Metro Manila.

We hope you will never need to, but in any medical emergency, remember to call 16-911. We will be there when you need us the most.

MISSION:
“We Save Lives”

VISION:
“To be the fastest, most competent and professional pre-hospital service provider in the country, adhering to international standards”

LARGEST FLEET

Over 65 Ambulances, First Responders, and Fleet Support

Our ambulances or ALPHAS make up 90% of our fleet. Each unit meets international standards and is equipped with life-saving medicine and equipment. Our D.O.C cars transport our Doctors and Nurses for 24/7 homecare services. Our CHARLIES serve as our diagnostic on call and driver on call vehicles as well transport supplies. Our support vehicles SIERRAS shuttle medical crew to and from posts and deliver supplies and mechanics to the ambulances.

ALPHA
Nurses, Emergency Medical Technicians, Paramedics and Doctors

SIERRA
Operations Managers, Field Managers and Mechanical Support Teams

D.O.C
Doctors and Nurses
Homecare service vehicle

CHARLIE
Diagnostic on call, driver on call and Additional Supplies

ER on Wheels

Our ambulances are virtual Emergency Rooms on Wheels. Each is fully-equipped with state-of-the-art medical and life-saving equipment including ECGs, parapacs, defibrillators, AEDs, suction, fluids, oxygen and injectable medications, to name just a few.

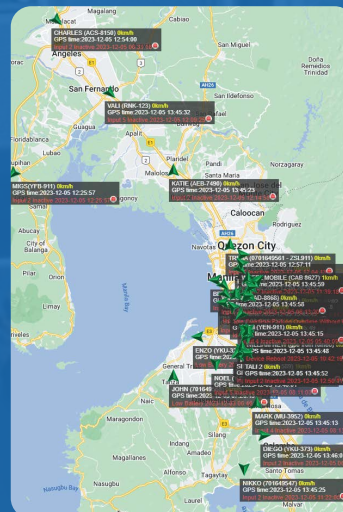

Transparency

Other control measures we have in place are dashcams for the safety of our patients, and personnel tracking devices on our crew to enable us to send the closest on-duty staff during emergencies.

Control and Tracking

All units are GPS tracked 24/7 to ensure the fastest response time and to manage expectations. Full travel reports are available for every run.

FAST RESPONSE TIME

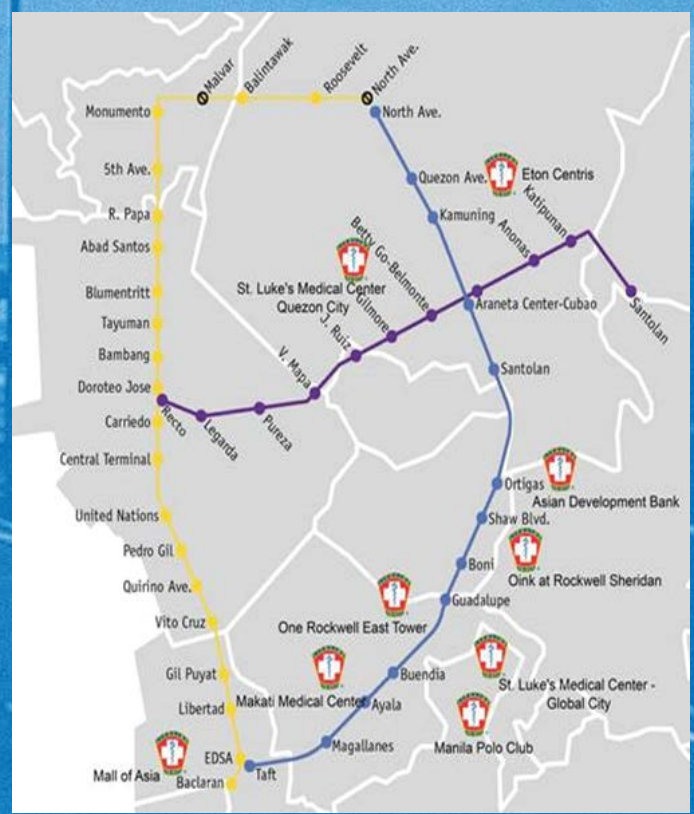

We average a 12-minute response time in Metro Manila. As a benchmark, the standard in New York is a response time of 10 minutes or under, and in California, 15 minutes or under.

LifePODs and Safety Zones

A safety zone is a defined area of coverage where we contract developers, cities, residential villages, corporations, and buildings to avail of membership for their areas of responsibility. Within these safety zones, our points-of-dispatch or LifePODs allow the ambulance and crew to maintain focus on one assigned area. A POD is a dedicated parking area, storage, and quarters for the ambulance and its crew. Each POD is fully-equipped with additional facilities, equipment, and supplies for the ambulance and crew.

Over 30 Ambulance Locations

 **Bianca Dinglasan Gelido** recommends Lifeline 16911. December 21, 2021

They are like family who is always there when you need them the most 🙏🙏🙏

Our ambulances and crew are spread across over 30 strategic locations in Metro Manila. This enables us to respond to calls from our members in the fastest possible time.

EMERGENCY CONTROL

4-Cornered Deployment System

When a call is made to 16-911, a 4-cornered deployment system is initiated immediately, mobilizing ambulances, doctors and hospitals within seconds. The two nearest ambulances are deployed to respond. The two nearest private and government hospitals are alerted of an incoming patient. A Lifeline doctor is advised of the emergency and is on standby for response or medical control if required. All of this happens even before the ambulance arrives on scene.

“16-911 is the only number you need to call. Your emergency is being managed.”

DISPATCH

Dispatch manages all our patient's needs, from their records, history, preferred hospital and doctors to the endorsement protocols in receiving hospitals, as well as traffic and re-routing if required. Each emergency is being managed from the minute the call is made.

ENDORSEMENT

Our relationship with contracted hospitals allows for a fast and efficient method of patient endorsement for immediate and accurate care upon reaching the ER. This saves valuable time and helps in selecting the right hospital for every emergency.

HOSPITAL NETWORK

Lifeline has strong relationships and contracts with over 20 of the best tertiary hospitals in Metro Manila. This allows us to facilitate the fastest possible endorsement times for patients.

MANPOWER COMPETENCE

EMS ACADEMY

Lifeline conducts all its training in-house. The Lifeline EMS academy conducts year-round training for EMTs specializing in pre-hospital care. All our courses have been accredited overseas to meet the high and ever-evolving international standards of EMS.

Lifeline EMS Academy is also the recognized and accredited trainer for the Philippine Air Force 505 Search and Rescue Squadron, the Philippine Army 515 Engineering Brigade, and the patrollers on the major tollways of SLEX, NLEX, and TPLEX.

PRIMARY SERVICES

Emergency Quick Response EQR

Lifeline responds to any medical or accident emergency 24/7 within Metro Manila.

Our ambulances are dubbed “Emergency Room on Wheels” with complete medical equipment and competent staff.

Lifeline commits to respond to all medical emergencies in under 30 minutes. Due to the strategic locations of our fleet of ambulances using Life POD’s our average response time within Metro Manila is 12 minutes.

Patient Transfer Services PTS

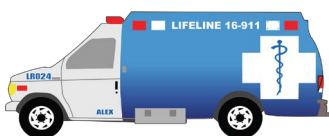

Lifeline transfer patients to and from homes and hospitals, 24/7 with complete medical equipment and medical team support. Lifeline transports patients throughout the Luzon area. Doctors and specialty medical equipment are available upon request.

*Advanced bookings can be arranged by calling Lifeline Dispatch 16-911

WheelMobile

WheelMobile, a service by Lifeline 16-911, is a dedicated fleet of PWD-assisted vans designed for wheelchair access. Tailored for the unique needs of individuals with mobility challenges, WheelMobile ensures safe and comfortable transportation for patients with limited mobility. With a focus on accessibility our specially equipped vehicles provide seamless and dignified assistance from home-to-hospital transfers to routine medical appointments, to a day out with friends.

D.O.C

Doctors-On-Call

Diagnostics-On-Call

D.O.C (Doctor On Call) and D.O.C (Diagnostics on Call) present Metro Manila's premier healthcare service, delivering top-tier medical care to your doorstep. With D.O.C, experienced and highly qualified doctors are just a call away, offering a personalized and convenient healthcare experience.

This service is especially helpful for blood tests requiring fasting. Proper scheduling will ensure that tests are done at the correct time both quickly and hassle-free. Our partner for this service, LCM Diagnostics, has been providing accurate and reliable medical laboratory services for over 35 years and is in conformity with its ISO 15189 accreditation.

Doctors Diagnostics-On-Call

Lifeline offers doctor-on-call and diagnostics-on-call services. Our doctors and nurses visit patients directly at their homes or offices, providing convenient and affordable professional medical services. This includes doctor consults and laboratory tests.

24 HR Doctor Consults

The Lifeline D.O.C. program is active 24/7 for consultations and laboratory tests meaning that you get round the clock treatment for any ailment you may have.

for minor medical events or advice, this can reduce the number of unnecessary trips to the ER by 30%.

Clinics

Lifeline currently operates school, corporate, barangay, and fully-equipped critical care/emergency clinics with complete diagnostics, X-ray, medical, and dental services. We can tailor-make clinics ranging from urgent care 24/7 clinics in residential villages to nurse-only clinics in corporate offices.

EXTENDED SERVICES

Jump Teams

Dedicated and highly-trained teams that can swiftly and professionally respond to any medical air evacuations and medical air transfers. Anywhere in the Philippines or Worldwide.

Airlift Jump Team

Dedicated and highly-trained teams that can swiftly and professionally respond to any medical air evacuations and medical air transfers.

Anywhere in the Philippines or Worldwide.

Extrication Jump Team

Responds to vehicular accidents around Metro Manila and major highways, requiring specialized tools such as jaws of life, poles, ropes, cutters, and spreaders to safely remove patients from wrecks and structural collapses.

Psychiatric Jump Team

Provides on-demand, confidential response to the potentially dangerous and challenging conditions of transporting patients to hospital psychiatric wards.

Event Coverage

For specialized events and tournaments, concerts, school activities, marathons, corporate events, exhibits and conferences.

Roving EMS

For medical trailers, golf carts, medics on bikes and foot patrol for events, schools, villages, malls, fields and courts.

Custom Event EMS

Tailor-made to suit each event, weddings, board meetings and funerals

COMPLIANCE & AWARDS

DOH

Lifeline is the first DOH licensed ambulance company in the Philippines. It is important to ensure that your provider is fully-licensed by the DOH and complies with the provision that a vehicle may only be called an “AMBULANCE” if it maintains the minimum requirements in equipment, supplies, training, medications, communications, back-up units, and protocols as determined by the DOH.

DOLE

Lifeline is the first and only ambulance company to comply with DOLE Department Order No. 174. This vital clearance ensures that no liability on any labor issues is passed on to the clients. Licensing and compliance are extremely important, especially when dealing with people’s lives.

I would like to commend the following people who have assisted us yesterday! ❤️🙏🙏

Team Paolo Alpha:

T.L. Andrei Aquinde, Yasher and Jeff.

They provided assistance and transferred us from location of the accident (MCX/SLEX) to the nearest hospital (Asian Hospital and Medical Center). What surprised us is that the assistance given was free especially the ambulance. We can't thank you enough health care officers! More power to your team and to the Lifeline 16911! God Bless us all. 🙏❤️
